### DR. DE VIGHNE IS ORDERED TO THE FRONT AT ONCE

Former Wrangell Physician Is a Commissioned First Lieutenant in Medical Reserve Corps

Dr. H. C. DeVigne this morning received telegraphic orders to report to San Francisco at once and prepare for foreign service. The telegram received is very meagre and merely instructs Dr. DeVigne to report. The nature of the foreign service or where he will be sent is not stated.

Dr. DeVigne is a commissioned First Lieutenant in the Medical Reserve Corps and has been expecting orders to report for some time. Several weeks ago Dr. DeVigne received instructions to prepare his private business so that he could leave on short notice, and now the final orders have been received. — Empire.

### RED + CROSS NOTES

The Red Cross War Fund, up to date for the Wrangell Chapter nets considerably over Five Hundred Dollars.

### In Honor of Mrs. Hofstad

The members of St. Philip's guild entertained Wednesday afternoon at the home of Mrs. H. D. Campbell for Mrs. Edwin Hofstad, the affair being in the nature of a welcome home party.

Bowls of columbine beautified the living room where progressive whist formed the entertainment of the afternoon.

At 5 o'clock a dainty luncheon was served in the dining-room, the table being centered with a tall vase of flounders. A slip of paper had been laid at each plate and these, when opened by the guests during the repast, were found to contain conundrums the guessing of which proved an amusing diversion. Twelve ladies enjoyed the occasion.

### DOG POISONER ACTIVE AGAIN

A number of dogs have been poisoned the past week. Some of the dogs that were victims were much prized by their owners.

The large black dog of Capt Jinks died this morning from being poisoned.

The dog poisoner is having all the fun to himself, as so far he has not revealed his identity.

### St. Philip's Church

July 1—Patriotic Sunday

Early in the war Gen. Haig called upon the British to go to church. The judgement of the great soldier was that the Allies could not win in their fight for democracy without divine help.

The same call is going through America. The call is that all throughout the land, July 1, should unite in a great service of patriotism in which the nation shall humble itself and ask for that divine strength which will give it the victory. St. Philip's Church most heartily calls you to unite with it Sunday evening next in their great service of patriotism.

The Civic Improvement Club will hold its regular meeting, Friday afternoon June 29 at the home of Mrs. M. O. Johnsons. All members are requested to be present.

Mr. F. H. Mobely, M. P. P.

the representative of a quarter

of the Province of British Colum-

bia, returned to Wrangell on the

Hazel B II after a tour of inspection

"up-river." Since his residence

in Telegraph Creek during

1900 and 1901 Mr. Mobely has

been absent from that vicinity.

He was impressed by the development

of new properties on the Stikine,

and gathered information about the

Iskoot claims. At the head of navigation he

noted little change.

"The fur trade has increased,

and a new source of revenue has

appeared in the person of the big

game hunter," he said.

"Roads are better and more numerous

than when I last visited the country,

but the improvement in shipping facilities

is of still greater importance. The freight

service has surpassed all expectations

this spring and to say that the people

of Telegraph Creek appreciate the new

order of things is putting the situation

mildly." Mr. Mobely paused to relate his

experiences in former days, when he

found agreeable exercise in traversing

the hills which now appear inaccessible.

Though the Stikine has made a few characteristic

deviations from its course the famous

peaks and canyons remain familiar landmarks.

In regard to proposed legislation

for the Atlin District, as such is Mr.

Mobely's territory known, the gentleman

said, "Development of the country's

assets is our sole aim, at present. We

expect to insure the government a direct

revenue, thereby eliminating taxation.

The principal drawback thus far has

been transportation, but in that line

we already see the dawn of better

conditions.

A new department, supervised by

mining and civil engineers, has been

created to investigate and make reports

upon properties throughout the district.

This board is designed to be of special

aid to the small prospector and promoter.

It will remove some of the difficulties which have

caused delay and disappointment in

opening up new claims. A purchasing

agency will be established to buy up

small holdings and operate them on a

satisfactory basis. A prospecting

assistant who will prove values on

mining properties by using government

Co., show excellent samples. The

mineral belt containing gold, silver,

lead and copper, which has been

extensively mined farther north,

runs through the Cassiar country

and from a similarity in formation

I am convinced, since they lie directly

in line, that the Stikine and Iskoot

properties occupy the middle portion

of the belt. If this is true, the mines

referred to are unquestionably rich

and offer a dependable supply of

valuable ore. "Smelters would be

necessary to operate these mines as

they yield complex ores, but the

government is ever ready to assist

propositions of this kind. Applications

for investigation have been pouring

in from all sections of the Province

and this year only a few reports can

be made; but an actual examination

of investments on the Stikine is

scheduled soon." Mr. Mobely left on

the City of Seattle Tuesday for

Ketchikan from which port he will

return to Prince Rupert. He intends

to visit Granby and Stewart, as

well as the Naas river region before

Parliament meets again, August

14, after which he will complete

his tour by a trip to Atlin.

"A word of commendation is due

Captain Barrington," said Mr.

Mobely just before his departure.

"I wish to announce publicly

my appreciation of his courteous

treatment of the passengers on the

excursion which I was able to join.

In praising the manager of the

Hazel B II for the service he has so

creditably performed, I am sure I

voice the sentiment of the majority

of the people on both ends of the

run, who appear to be in hearty

accord with the captain's worthy

enterprise."

There are now 525 members in

the big drive week are over \$900

with the purchase of \$2500 odd

## Universal Training the Only System of Defense For a Democracy

By JULIUS KAHN, Congressman  
From California

I AM in favor of permanently  
holding the Philippine Islands  
and the establishment of a sys-  
tem of universal army training for  
the men and youths of the United  
States.

Our army is composed of enlist-  
ed men who have become profes-  
sional soldiers, men who are sol-  
diers for the pay there is in it.  
SUCH A SYSTEM HAS ALWAYS  
BROKEN DOWN WHEN PUT TO  
THE SUPREME TEST.

The experience of the present  
war has shown that there is only  
one system in a democracy like ours  
that will be effective for the defense  
of the country. That system is uni-  
versal training. The events of the  
past year on our southern border  
have convinced every fair minded  
citizen that universal training is  
the true solution of our military  
problem.

EVERY MAN OWES DUTY AND  
SERVICE TO HIS COUNTRY.

When that is fully understood  
and when that is fully carried out  
this republic, which we all love so  
dearly, will have a far better and  
far more patriotic and a far nobler  
citizenship than it has ever had in  
all its history.

## Solution of Food Problem Is to Pay More Money to the Farmer

By JOHN J. DILLON, New York State  
Commissioner of Foods  
and Markets

WITH more people in the city  
to eat and less people in the  
country to produce the sup-  
ply of food must decrease, and the  
cost of it will inevitably increase.  
Moreover, the short supply will be  
more easily controlled by specula-  
tors and gamblers, and their toll  
will add to the normal cost.

Is, then, the solution of the food  
problem hopeless? Not at all. IT  
IS A SIMPLE PROBLEM AND  
EASY TO SOLVE.

Your first concern is a full sup-  
ply. This must come from the  
farms. Pay the people who pro-  
duce it enough so they will be con-  
tent to remain on the farms pro-  
ducing it. When they have pro-  
duced it do not let the middlemen  
cheat them out of the best part of  
it and create conditions that make  
it better for them to let it rot on  
the ground rather than ship it to  
you.

YOU CAN NEVER HOPE TO GET  
FOOD AT THE FARMS PERMA-  
NENTLY FOR LESS THAN YOU  
NOW PAY. YOU MUST PAY MORE.

Give him a reasonable profit on  
his productions and the American  
farmer will produce food to feed  
the world for years to come.

Have your watch repaired at  
George Cowan's, opposite the  
Wrangell hotel bar.

# MINING NEWS

## John G. Gullet of Dease Creek Talks of Con- ditions in the Cas- siar Region.

Mr. John G. Gullet of Dease  
Creek, B. C., arrived Sunday on the  
Hazel B. He en route to his home in  
Oklahoma. Mr. Gullet has been  
prospecting in the upper country for  
the past five years, and is well  
informed concerning present mining  
developments in that section.

"Weather conditions have fa-  
vored work on the claims, though  
the supply of water is limited",  
he declared, in summing up results  
obtained this season. "On  
Tibbet's creek Mr. Fenton's hy-  
draulic experiments are meet-  
ing with success and nine  
miles farther up, at the mouth of  
Dease Creek, Hanneman and Roupe  
are operating. At McDames' Creek  
Oscar Anderson is going ahead with  
his hydraulic proposition, but the  
Ula Creek claim, owned by the  
Mitchell Brothers, is idle this year.

"About seventeen men are em-  
ployed at Tibbet's, the former  
property of W. Pike and Lord  
Beauxclerk. The present owners  
find the location profitable and are  
making satisfactory progress this  
summer.

Hanneman and Roupe are work-  
ing alone on their claim, purchased  
from Billy Ryan. The formation  
is sandy loam containing some  
coarse gold, which can be taken  
out with comparative ease. Their  
method is much like that used in  
Dawson in the early days. Having  
accumulated dump carried out from  
the face of the property during the  
winter months, they sluice it all  
summer with water from the Creek  
dam."

Mr. Gullet thinks that there are  
plenty of paying propositions in the  
Dease Creek district. The upper  
country will yet have its day, he  
affirms.

"In the past, 25,000 men rushed  
to the Cassiar country and there  
is every reason to believe that there  
is sufficient gold now, to warrant  
investments in the future. At  
present the white population is  
small, a hundred whites and per-  
haps a thousand natives would  
compromise all the residents at the  
various posts and stations. Young  
men are no longer found, those  
eligible for service having entered  
the army. This condition retards  
work and lack of necessary ma-  
chinery is felt, besides," and at  
this point Mr. Gullet smiled, "we  
have to contend with the high cost  
of living.

"But as long as faith in the  
country's resources is sufficient to  
keep practical mining men inter-  
ested and laborers busy we shall  
continue to regard these difficulties  
as trifles."

# NO MORE TWINKLE TOES IN ENGLAND

London, June 16. — Banished  
from the British Isles by the frown  
of popular disapproval, the God-  
dess Terpsichore was observed  
sadly winging her way westward  
early today.

The British Lion has put his paw  
down on dancing and the light fan-  
tastic will be tripped no more in  
these parts until the last Hun hesi-  
tation has turned into head-long  
flight.

Ciro's is out of bounds. The  
Savoy ball-room chandeliers are  
gathering cobwebs. The Waldorf  
tea-rooms are now sometimes used  
for tea. Private dances are, it  
possible, more taboo than public af-  
fairs.

The recent wrath aroused by  
Lord and Lady Curzon, who enter-  
tained a dozen guests at an informal  
dance in their home, has put the fear  
of the malcontents who write letters  
to the editors in the hearts of any  
who would dance in the future.  
London was alive with posters the  
day after Lord Curzon's affair,  
screaming to the public in foot-high  
letters that "Curzon Dances While  
England Burns," Twentieth Century  
Nero," etc.

Ed Grigwire's dandruff treat-  
ment is the best on the market.

## RED CROSS

Why your Country needs you as a Red Cross member

Your help is needed now to support its field and base hospitals, its doctors and nurses, and to provide the necessities of military and civilian relief. To do so calls for at least 1,000,000 members.

The American Red Cross is chartered by Congress. It is the only volunteer agency for relief commissioned by the government in case of war or overwhelming disaster.

The President of the United States is president of the society.

The Red Cross reports to Congress; its accounts are audited by the War Department. All that it does is open to the public.

America can do what other nations have done. Do you know that as an American you have the right to become a member of the Red Cross?

As a member of the Red Cross you can support your government in its humanitarian work.

No field work is required of members.

#### Chain Letters

"Numerous 'endless chain' letters have been brought to the attention of the Red Cross, many of them for causes worthy in themselves, but conducted by unrecognized individuals.

"Nothing of this sort has ever been authorized by the Red Cross, and this is to inform all chapters that all such methods of raising money are without the counsel or countenance of the National Headquarters."

The above notice has been issued for publication by the chairman of the National advertising committee.

The house to house committee is doing its part. The people are nobly responding.

There are still some members of the Red Cross who are needed at the town hall Tuesday afternoons. Make the start next week.

CHAIRMAN,  
Publicity Committee,  
Wrangell Chapter, Red Cross Society.

### JUDGE THOMAS RESIGNS

**C. E. Weber Will Be the New U. S. Commissioner.**

Judge Wm. G. Thomas who has resided in Wrangell more than 40 years, and who has been U. S. Commissioner for 11 years has tendered his resignation to take effect June 30.

When seen by the Sentinel reporter Judge Thomas gave no special reason for resigning except that the fees are quite small, and that his wife being in poor health he wished to take her up the Stikine for a month or two in the hope of benefitting her health.

Judge Jennings, in accepting the resignation stated that did so with regret as he had been in Wrangell so long and had always given satisfaction, and there had

never been any complaint of graft or partiality.

In resigning Judge Thomas recommended C. E. Weber as his successor. Judge Jennings has decided to appoint Mr. Weber U. S. Commissioner at Wrangell to take office July 1.

Asked regarding his plans for the future Judge Thomas stated that upon his return from Telegraph creek he expected to take up the practice of the law in connection with his fire insurance business.

Owing to our inability to secure sufficient help this week we were compelled to leave out a column of matter furnished by the chairman of the publicity committee, Wrangell Chapter Red Cross. This we regret extremely.
